Cautionary Language

Regarding Forward-Looking Statements and Other Matters

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. While Anadarko believes that its expectations are based on reasonable assumptions as and when made, no assurance can be given that such expectations will prove to have been correct. A number of factors could cause actual results to differ materially from the projections, anticipated results or other expectations expressed in this presentation, including the following: the Company's ability to successfully defend itself against any remaining claims relating to the Deepwater Horizon event (including, but not limited to, fines, penalties and punitive damages) and BP's ability to fulfill its indemnification obligations to Anadarko; the legislative and regulatory changes, such as the delays in processing and approval of drilling permits, exploration plans and oil response plans that may impact the Company's Gulf of Mexico and International offshore operations resulting from the Deepwater Horizon events; Anadarko's ability to achieve its production targets, successfully manage its capital expenditures and to complete, test and produce the wells and prospects identified in this presentation; to successfully plan, secure necessary government approvals, finance, build and operate the necessary infrastructure and LNG plant; and achieve its production and budget expectations on its mega projects. Other factors that could impact any forward-looking statements are described in "Risk Factors" in the company's 2010 Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and other public filings and press releases. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. Anadarko undertakes no obligation to publicly update or revise any forward-looking statements.

Please also see our Web site at www.anadarko.com under "Investor Relations" for reconciliations of the differences between any non-GAAP measures used in this presentation and the most directly comparable GAAP financial measures.

Cautionary Note to U.S. Investors — Effective January 1, 2010, the U.S. Securities and Exchange Commission (SEC) permits oil and gas companies, in their filings with the SEC, to disclose only proved, probable and possible reserves that meet the SEC's definitions for such terms. We may use terms in this presentation, such as "resources," "net resources," "net discovered resources," "net risked resources," "net lower-risked captured resources," "net risked captured resources," "gross resources," "gross resource potential," "gross unrisked resource potential," "gross unrisked resources," "lower-risked captured resources," "recoverable resources," "recoverable natural gas" and similar terms that the SEC's guidelines strictly prohibit us from including in filings with the SEC. U.S. Investors are urged to consider closely the oil and gas disclosures in our Form 10-K for the year ended December 31, 2010, File No. 001-08968, available from us at www.anadarko.com or by writing us at: Anadarko Petroleum Corporation, 1201 Lake Robbins Drive, The Woodlands, Texas 77380 Attn: Investor Relations. You can also obtain this form from the SEC by calling 1-800-SEC-0330.
