# docFinder plus
Powered by PLS Inc.

## Vast Presentation Archive
More than 1.6 million slides in 50,000 PowerPoint presentations by over 2,000 oil and gas companies.

## Monitor, Track and Mine Competitor Performance
Search peer presentations by:
- Table, Bar & Pie Charts
- Seismic Imaging & Well Logs
- Isopach, Structure & Trend Maps
- Plats & Leasehold Positions
- Decline & Type Curves
- Valuations & Metrics
- Wellbore Design
- IP Rates & Analysis

## Tailor Searches to Specific Metrics
Fine-tune searches to such granular detail as "Midland Basin wells under $6 million with 35% IRRs." Beyond economics, users can find slides that address B-Factor, reserves, acreage, depth, lateral length, IP rate, rigs running, drilling days and completion details such as frac stages and proppant load.

## Unique Tagging & Annotation
A PLS analyst annotates and tags each slide based on more than 50 specific categories.

## Export & Share
Export any slide or presentation as needed or directly share slides and/or full presentations with colleagues via email.

## Financial & Technical Presentations
Database archives both investor presentations as well as select conference and technical PowerPoints.

## Easy Access
Web-based applications enables users to access docFinder from any computer or browser.
