Capitalize is a comprehensive view of oil and gas debt and equity offerings. It tracks bank leads, syndicates, client relationships and associated fees. The Capitalize database is essential for bankers and borrowers needing transparency on the capital-intensive oil and gas markets.

A financial database for oil & gas markets.

Capitalize gives executives a platform to create an accurate picture of banking relationships and profitability in real time.

Tracking financings, relationships & associated fees.

Capitalize validates market intuition using data analytics to efficiently allocate capital to maximize return.

The **PLS Capitalize** database saves time and brings clarity to **capital market** activity, allowing borrowers and bankers alike to turn information into **new business** opportunities. **Capitalize** tracks IPO secondary offerings, amendments, ATM registrations, bonds and private equity.

To learn more about **Capitalize**, please call +1 713-650-1212 or email info@plsx.com

Opportunity is a reflection of information.

Enhance Relationships

Data and analysis that takes days and weeks to gather and perform is now available in real time with analytics in one place. Get a complete picture of your client's needs and banking relationships.

Track Credit Risk

Capitalize allows you to track credit risk quickly and easily as we report negative covenant changes over time—critical in today's environment. We also include borrowing-based price schedules across the value chain for market transparency.

Analyze Market Activity

Stay on top of market trends with daily updates on the latest financings including syndications, fees, up-to-date league tables and offerings.
